CRYSTAL CLINIC QUICKCARE™ NOW OPEN IN KENT

Immediate Care for Orthopaedic Injuries Available Starting Nov. 2

Fairlawn, Ohio, Nov. 2, 2020 – On Nov. 2, Crystal Clinic Orthopaedic Center began offering QuickCare services at their recently expanded outpatient clinic in Kent, located at 2007 State Route 59. Crystal Clinic QuickCare provides immediate care for orthopaedic and sports injuries without an appointment. Hours are Monday-Friday: 10 a.m.-9 p.m. and Saturday 8 a.m.-2 p.m.

Crystal Clinic QuickCare is a convenient option for the expert treatment of broken bones, sprains, strains and other injuries of the joints, muscles and bones by providing shorter wait times than an emergency room or urgent care, lower co-pays, and follow-up care at the Kent clinic as needed. QuickCare is part of many employer healthcare programs and accepts virtually all major insurance plans.

Because the medical providers focus solely on orthopaedics, treatment at Crystal Clinic QuickCare helps patients avoid crowds and potential exposure to infectious illnesses in emergency rooms or general urgent care centers.

“Research has shown that our patients recognize that their safety is our top priority,” said Curtis Noel, M.D., Medical Director of Crystal Clinic QuickCare. “Our commitment to maintaining a clean and safe environment helped us attain a national five-star rating in patient experience, based on a survey of our patients that was administered by the Centers for Medicare and Medicaid Services.”

In addition to QuickCare, Crystal Clinic’s outpatient services in Kent include assessment, treatment and post-surgical care for the entire range of orthopaedic conditions and injuries by fellowship-trained orthopaedic surgeons. Physical and occupational therapy services are also available at the Kent clinic, ensuring patients can receive all the orthopaedic care they need in one convenient location.
